Dear Ellie:

Thank you for the excellent work you did in producing "*Lawyers of the Valley: A Tradition of Fellowship and Service.*"

The fifteen-minute documentary is a beautiful tribute to the San Fernando Valley Bar Association's seventy-five years history. The video added to the entertainment at our Anniversary Gala and was the perfect keepsake for generations of bar leaders.

Your experience and skills were instrumental in helping us tell our story through interviews, photos and the narration by Kelsey Grammer. The story flowed seamlessly.

Our former bar leaders were particularly touched and appreciative. I received a letter from past president Philip Jones who wrote, "The video was certainly most professionally produced, and I am very grateful for the copy you sent me. I was a member of your association from 1949 to 1975, so many of the background incidents were familiar to me. It was most enjoyable to see old friends."

Again, thank you for your invaluable contributions to our history project, and I would welcome the opportunity to work with you again should the need arise.

Sincerely,

ELIZABETH POST  
Executive Director
